Developer ToolsGit and Github

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Database Management System (DBMS)
- OOPS Concept
- Web Development

INTERNSHIP

Pregrad Online Training Platform

MERN Stack Developer Interns

11 2023 – 01 2024

Noida, India

- learn about development fundamentals and gained hands on experience with technologies.

PROJECTS

Blood Bank Management  | [MERN stack](#)

july 2024

- Developed a full-stack web application to facilitate blood donation, management.
- Designed and implemented functionalities for **donor registration**, blood requests, and **blood inventory management** across multiple organizations.
- Created a secure **authentication system** using JWT for different user roles, including donors, hospital staff, and administrators.
- Provided **admin dashboards** to oversee donations, manage blood requests, and track inventory levels efficiently.
- Utilized MongoDB for database management, Express.js and Node.js for the backend API, and React.js for an interactive frontend interface.

E-commerce Web Application:  | [MERN stack](#)

March 2024

- Developed a full-stack e-Commerce platform with features like product listing, shopping cart, and secure checkout.
- Implemented user authentication, order management.
- Designed a responsive and intuitive UI using React.js for enhanced user experience.
- Optimized MongoDB for efficient product and order data handling.

My Portfolio:  | [MERN stack](#)

February 2024

- Developed a personal portfolio website to showcase my projects, education, and work experience.
- Implemented dynamic contact functionality using **EmailJS** to allow visitors to send messages directly from the site.
- Integrated **WhatsApp API** for the "Hire Me" button, enabling quick communication for job opportunities.
- Designed a responsive and user-friendly interface using **React.js** and **Bootstrap**.
